

Faculty Dashb 2

05 September 2022 10:52

- SIDE PANEL FEATURES

1. About requires no further changes

2. HOME TAB :

a. Access to Related setups should be made available i.e Google classroom, Microsoft Teams, etc.

b. Setup can be selected to view enrolled students records

c. Manual Attendance : input - RFID no, date, and time

--> Option 1 : (temp screen) list of renrolled students along with checkboxes. Ultimately after ticking off required students, only absentees will remain on this screen.

--> Option 2: (Formatting Options) i.e. checkboxes, attendance color-coordinated , mark all absent/ present, manual attendance modification, final submission with confirmation prompt box

3. SETUP :

a. NEW SETUP -

--> Enter data in bulk i.e. Excel file or SPID

--> If any students remain after this, just enter the SPID, details will be automatically loaded

b. MODIFY SETUP -

--> Add/ remove students option : in this only enrollment details should be deleted but the student records must be kept intact.

--> Deletion should require prior confirmation box.
